La familia Plaza, una de las pioneras en el desarrollo de la actividad cerámica en la localidad de Alcora - origen del clúster cerámico de la provincia de Castellón-, constituye en Septiembre de 1962 la empresa Azulejos Plaza, S.A., situada en la propia localidad de Alcora, con el objetivo de producir y comercializar todo tipo de revestimiento cerámico.

Evoluciona a lo largo de estos años iniciando la producción de pavimentos y piezas decoradas en tercer fuego con la maquinaria y las técnicas más innovadoras como la impresión digital cerámica. La pasta blanca, el porcelánico y las piezas especiales, futuro de una empresa comprometida con el diseño, la calidad y servicio.

The Plaza family, being pioneers of developing the ceramic tile industry, in the city of Alcora, Spain founded the company Azulejos Plaza in September 1962. The factory focussed their production and commercializing efforts to ceramic wall tile.

The company evolved during the following years, and began to produce floor tiles, along with unique firing processes to create decorative tiles, using highly specialized, innovative machinery and techniques, such as digital printing of glazes. Today Plaza produces tiles using different refined clays, such as white and red clay, for wall tiles, porcelain clay for floor tiles. The future of the company is committed to design, quality, and service.

La famille Plaza, l'une des familles pionnières dans le développement de l'activité céramique dans la ville de L'Alcora - ville où est né le pôle industriel de la céramique dans le département de Castellon - fonde la société Azulejos Plaza, S.A. en septembre 1962. La société a pour objectif la fabrication et la commercialisation de tous types de carreaux céramiques.

Le processus de fabrication connaît une évolution constante et la société investit régulièrement pour incorporer les machines et les techniques les plus innovantes comme l'impression digitale. Les produits tels que les faïences en pate blanche, les grés cérames et les pièces spéciales représentent le futur pour l'entreprise qui est tournée vers le design, la qualité et le service.

Die Familie Plaza war eine der ersten Familien, die mit der Produktion der keramischen Fliesen angefangen hat, die Firma wurde im September 1962 in L'Alcora – Castellón, gegründet.

Mit der Zeit wurde die letzte Technologie angewendet. Azulejos Plaza investiert immer in Innovation, zurzeit produzieren wir rot –und weiß scherbige Fliesen im Wandbereich. In Bodenbereich produzieren wir Feinsteinzeug. Seit Januar 2016 haben wir eine Kalibriermaschine, die in trocken die Fliesen rektifiziert, eingeführt. Diese Technik ist unter anderem vorteilhafter im ökologischem Sinne, als die übliche Herstellungsart. Es wird kein Wasserstrahl verwendet.

Семья Плаза является одним из пионеров в производстве керамической плитки в небольшом индустриальном городке Алкора, расположенном в провинции города Кастильона.

Фабрика была основана в сентябре 1962 года.

Все эти годы фабрика успешно работает и развивается в области производства керамической плитки и керамогранита самых разных видов и широкой размерной линейки. Сегодня PLAZA оснащена передовым оборудованием и новейшими системами, что позволяет осуществлять третий обжиг, дигитальную печать, производить высококачественный керамогранит, плитку из белой глины и декоративные элементы. Фабрика стремится идти в ногу со временем, демонстрируя новинки дизайнера, совершенствуя качество продукции и улучшая обслуживание.

Los colores de las muestras son orientativos. Cada producción tiene variaciones de tonalidad y efecto, debido a los esmaltes especiales reactivos y metálicos utilizados. Para la limpieza de estos materiales deben utilizarse productos no agresivos con pH neutro. Los azulejos presentan un efecto craquelado, procedimiento decorativo que utiliza los dibujos formados por las grietas del vidriado.

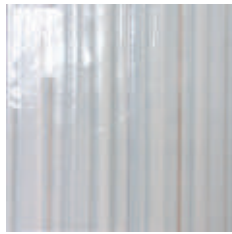

Simply as references the colours of the samples. Each production has variations of tonality and on the effects. It due to the special reactive as those metallics used glazes. For the cleanlinnes of those tiles, they must use not aggressive products with neutral PH. The tiles present an effect craquelé, such decorative effect it has been obtained by the cracks of the glaze creating particular designs.

Los colores de las muestras son orientativos. Cada producción tiene variaciones de tonalidad y efecto, debido a los esmaltes especiales reactivos y metálicos utilizados. Para la limpieza de estos materiales deben utilizarse productos no agresivos con pH neutro. Los azulejos presentan un efecto craquelado, procedimiento decorativo que utiliza los dibujos formados por las grietas del vidriado.

PRODUCTOS CON METÁLICO / METALES PRECIOSOS: ORO, PLATA, PLATINO:

Aconsejamos para su conservación que una vez colocados retiren los restos de la colocación con una esponja y abundante agua sin frotar sobre las piezas con ningún material abrasiivo. No utilizar productos con ácido clorhídrico ni tampoco estropajos. Para limpiezas posteriores, no utilizar detergentes en polvo, ni soluciones ácidas ni alcalinas, ni elementos abrasivos. Es suficiente una bayeta húmeda y jabón líquido neutro.

EN

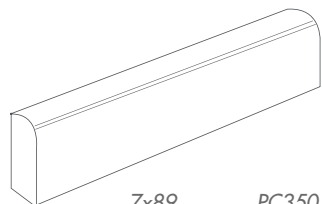

PRODUCTS METAL / PRECIOUS METALS: GOLD, SILVER, PLATINUM:

We recommend for preservation once removed the remains placed placement with a sponge and plenty of water without rubbing on the parts with no sanding material. Do not use products with hydrochloric acid nor pads. For further cleaning, do not use powder detergents, and acidic or alkaline solutions, or abrasive elements. It would be enough with a mild liquid soap.

SP CONSEJOS DE COLOCACIÓN

- Se recomienda colocar los azulejos de formatos rectangulares trabados a un tercio.
- Los azulejos colocados en combinación con nuestros mosaicos, deben mantener la misma junta que los mosaicos.
- Todos los azulejos, sin excepción, deben ser colocados con junta para garantizar las propiedades del producto. Se recomienda la colocación con junta mínima de 2 mm.
- Se recomienda mezclar el material de varias cajas a la hora de su colocación para mantener el aspecto general del producto.
- Los modelos con destonificación controlada deben colocarse aleatoriamente.
- Se recomienda para los modulares el uso de un sistema de nivelación, para evitar problemas de curvatura, ya que en algunos casos se traba 50%. Y también que se coloque con materiales del mismo tono.
- Verificar antes de la puesta en obra:
 - La calidad impresa en la caja se corresponde con la del material solicitado
 - Todas las cajas pertenecen al mismo tono y calibre
 - La ausencia de defectos visibles
 - Planificación de todo tipo de juntas: estructurales, perimetrales, de dilatación y de colocación

No se admitirán reclamaciones de problemas derivados del incumplimiento de estas premisas cuando el material ya esté colocado.

Azulejos Plaza S.A. se reserva el derecho de anular y modificar total o parcialmente, cualquiera de los modelos, colores, formatos, referencias, grupos de precio y especificaciones técnicas contenidas en este catálogo. Todos los datos de este catálogo están sujetos a errores tipográficos de los cuales Azulejos Plaza S.A. no se hace responsable.

EN FIXING INSTRUCTIONS

- It is recommended to brick bond rectangular format tiles at one third.
- Tiles fixed in combination with our mosaics must maintain the same grout width as that of the mosaics
- All tiles, without exception, should be fixed with a grout joint in order to ensure a good installation. It is recommended fixing with a minimum grout width of 2 mm.
- It is recommended that material should be mixed from several boxes at the time of installation in order to enhance the overall appearance of the product.
- Those models with a random tonality should be fixed randomly.
- When "Stager" tiles installation, we suggest you the usage of a "Levelling System". To assist the "Stager's type installation", despite when at 50% or to prevent the possible curvature presented by the tile. Other important aspect, we recommend to use when necessary, all the tiles, with the same tonality.
- Verify the following points prior to fixing :
 - That the quality printed on the box corresponds with that of the material requested
 - All the boxes belong to the same tone and caliber
 - The absence of visible blemishes
 - Planning should be made for all joints including : structural and perimeter joints, to cover both expansion and fixing

Complaints will not be admitted for problems resulting from the non-compliance of these guidelines once the material has already been fixed.

Azulejos Plaza S.A. reserves the right to cancel or modify, either completely or partly, any of the models, colours, sizes, references, price groups and technical specifications contained in this catalogue. All of the details within this catalogue are subject to printing errors for which Azulejos Plaza S.A. is not responsible.

FR CONSEILS DE POSE

- Nous recommandons de poser les carrelages de forme rectangulaire au tiers.
- Les carrelages combinant avec nos mosaïques doivent être posés avec un espace de joint identique à ceux des mosaïques.
- Tous les carrelages, sans exception, doivent être posés avec un joint afin de garantir les propriétés du produit. Nous recommandons une pose avec un joint minimum de 2 mm.
- Nous recommandons de mélanger les boîtes de matériel au moment de la pose afin de maintenir l'aspect général du produit.
- Les produits dénuancés doivent être posés de manière aléatoire.
- Il est recommandé d'utiliser un système de nivellement pour la pose des carreaux multi formats afin d'éviter les problèmes de planéité étant donné que la pose se fait à 50% dans certains cas. Il est également recommandé de poser des produits ayant la même nuance.
- Vérifier avant la pose :
 - Que les indications figurant sur la boîte correspondent à celles du produit demandé.
 - Que toutes les boîtes sont du même ton et calibre.
 - Qu'il n'existe pas de défauts visibles.
 - Planification des types de joint : structuraux, périmétraux, joint de dilatation et joint de pose.

Aucune réclamation ne sera acceptée une fois le matériel posé, si les précédentes recommandations ne sont pas appliquées.

Azulejos Plaza S.A. se réserve le droit d'annuler et modifier totalement ou partiellement chacun des modèles, couleurs, formats, références, groupes de prix et caractéristiques techniques contenus dans ce catalogue. Toutes les indications du catalogue sont sujettes à erreurs typographiques dont Azulejos Plaza S.A. ne se fait pas responsable.

GE VERLEGEANLEITUNG

- Rechteckige Formate sollten höchstens im Drittelverband verlegt werden.
- Fliesen, die mit unseren Mosaiken verlegt werden, sollten die gleiche Fugenbreite aufweisen.
- Alle Fliesen (ohne Ausnahme) müssen mit einer Minimalfuge von 2 mm verlegt werden.
- Generell ist es ratsam, während der Verlegung Fliesen mehrerer Verpackungen zu mischen, um eine Natürlichkeit in der Optik des Belags zu erzielen.
- Fliesen mit starkem Farbspiel sollten paketweise verlegt werden. Hier nicht mehrere Verpackungen mischen, da das Mischverhältnis im Karton bereits vorhanden ist.
- Wir empfehlen, das Nivellierungssystem beim Modulverlegung, da werden beim Verlegung verschiedene Formate zusammen Planitätsprobleme vermeiden. Achten Sie auch die Tonalität der Fliese beim Verlegung.
- Bitte vor der Verlegung beachten:
 - Paketbezeichnung auf Richtigkeit bezüglich bestellter Ware prüfen.
 - Alle Pakete sollten sowohl in Tonalität als auch in Kaliber identisch sein.
 - Auf sichtbare Mängel prüfen.
 - Planung aller Fugen: Strukturfugen, Randfugen, Dehnungsfugen, Verlegefugen.

Reklamationen, die auf Nichteinhaltung o. g. Anweisungen zurückzuführen sind, werden nicht anerkannt. Verlegtes Material kann nicht reklamiert werden.

Modo de empleo:

How to use:

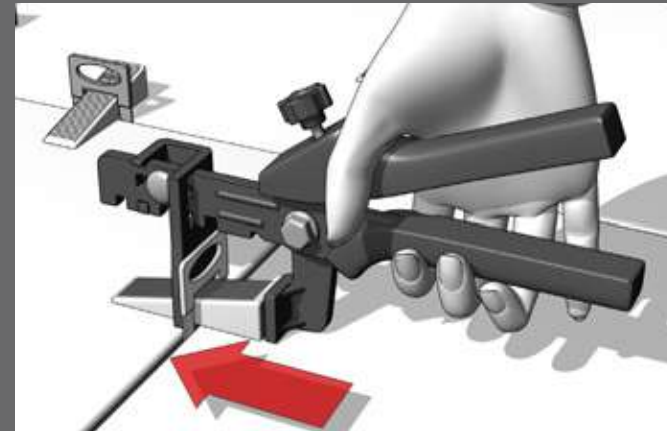

1.- Coloque la primera baldosa, extienda la cola en la zona contigua, inserte el calzo y ponga la siguiente baldosa golpeando con el mazo.

1.- Place the first tile, spread the cement on surrounding area, insert the shim and place the next tile with the rubber hammer.

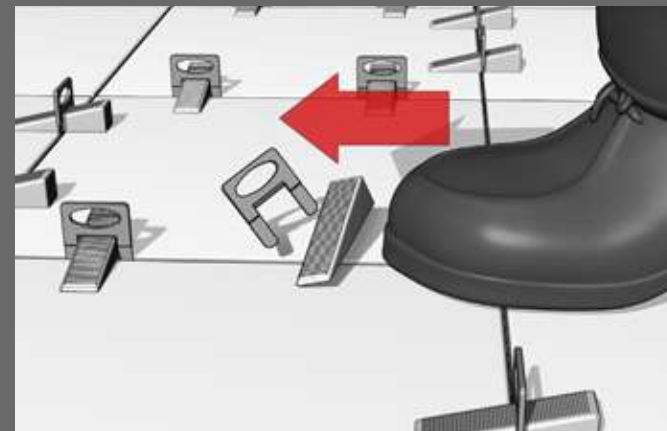

2.- Inserte la cuña con los dedos hasta el tope sin hacer excesivo esfuerzo.

2.- Insert the wedge with your fingers as far as it will enter with no effort.

3.- Aprieta la cuña con la pinza, ajustando el tope para limitar la presión hasta que las baldosas queden niveladas.

3.- Press the wedge with the pincers, using the top pressure stopper, until tiles are leveled.

4.- Al día siguiente, cuando la baldosa esté adherida, golpee el calzo a 90° con el pie o con un mazo de goma hasta romperlo.

4.- The next day, once the tiles is secured, hit the border of the shim, at 90°, with your shoe or a rubber hammer until the shim breaks.
