MONOPOLE

Monopole Cerâmica was founded in 2011 with the challenge "to be different". After the years due to careful control of the products' quality and being sensitive to the latest trends and innovations on the market, we can say that we are achieving it.

Monopole creates tendencies in the ceramic world. This is possible thanks to our I & D department, which keeps us at the forefront of innovation, design and registers Monopole's patent rights.

Our products are unique, different, satisfying a taste, as well as being modern, innovative, classic and authentic. Our collections have been created with the purpose of making life more comfortable. Thanks to this, we export our products to more than 70 countries.

This achievement makes us really proud of our products and work of our team.
