

50 años

Gala's 50th Anniversary, the creation of a unique space.

Gala is currently celebrating its 50th anniversary and for this reason we have created a new space that combines the identity and philosophy of the company.

Along with the architectural firm A-cero, the architects Joaquín Torres and Rafael Llamazares have designed a space that reflects Gala's slogan "Close to you" and its principles of avant-garde design and functionality, a bathroom space accessible to those who appreciate an impeccable décor. Eight square meters full of design and visual harmony for the bathroom.

A project entirely created with Gala's product range, selected by the architects at A-cero, who have designed a unique, avant-garde and functional bathroom.

The wall-hung sanitary ware and the glass enclosures offer a geometry and continuity to its interior, providing a greater feeling of spaciousness to the eight square meters used.

The furniture selected from Gala's catalogue provides the functionality needed in every modern home without disregarding the design and beauty of the space.

Plan view of the 50th anniversary bathroom

The 50th Anniversary Bathroom is therefore a space where the balance and harmony of its elements, thanks to the various colour combinations offered by its range of wall and floor tiles with different finishes, transform the bathroom into an avant-garde space within everyone's reach and to everyone's taste, a complete bathroom full of style. A bathroom made up of affordable and high quality products to enjoy a very important space within our home.

Description of the space:

Resembling a sculpture, the two cubes that make up the design of the bathroom accommodate an entrance and a small patio with an inner garden.

The design presented is a proposal of 8 m² with versatile elements that adapt to the different dimensions and typologies of any bathroom, so that the installation of the products is feasible in any home.

A-cero

joaquin torres & rafael lamazares

Created in 1996, this architectural firm, with more than 100 professionals, focuses its activity on the integrated development of architectural projects.

Led by the architects Joaquín Torres and his partner Rafael Lamazares, the architectural firm A-cero has branches in Spain (Madrid and A Coruña) and abroad (United Arab Emirates and Dubai).

Their know-how in the perception of architecture as a whole, from the physical walls to the interior design and landscaping, has given them the chance of working in countries such as Austria, Lebanon, Portugal, Arab Emirates, Thailand, Russia, Dominican Republic, etc...

A-cero Tech, a company specialising in the creation of industrialised housing, completes the A-cero group.

Joaquín Torres

In 2012, Joaquín Torres exhibits "A-cero, living within architecture" in the IVAM Museum in Valencia.

In 2013 he publishes the book "Behind the door" together with the journalist María Cubero.

Joaquín Torres participates regularly in many debates, conferences, lectures and in social networks, where he leads the world ranking of followers within the profession.
